

## Project Initialization and Planning Phase

Date	28 July 2025
Project Name	Inflation Analysis: journeying through Global Economic Terrain
Maximum Marks	3 Marks

### Problem Statements:

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1	An analyst / policymaker tracking inflation trends.	Understand inflation shifts before and after COVID.	Data is inconsistent across years and countries.	There's no streamlined, visual comparison for periods.	Confused, uncertain, and delayed in decision-making.
PS-2	A small business owner scaling operations.	Forecast costs and adjust pricing accurately.	Inflation trends are unclear and inconsistent.	I lack time and tools to analyse scattered economic data.	Anxious about budgeting and long-term planning.
PS-3	A global investor tracking economic indicators.	Analyse inflation trends to guide investment decisions.	Inflation data across countries lacks uniformity.	Reporting standards, timelines, and formats vary widely.	Uncertain and at risk of misinformed investments.
